Concept

We have the pleasure to invite you to this year's 7th European PPP-Symposium "PPP and Financing Instruments".

New ways of structuring interim and long term financing as well as designing security packages and integrating European and national subsidies represent a formidable challenge to public sector clients, investors, construction companies and financial sectors alike. The 7th EU-Symposium presents an opportunity by way of expert speakers and workshops to discuss critical questions and exchange experiences. We are looking forward to welcoming you to our event.
